

Anti-Viral Multi-Surface Sanitiser

Kills **99.99%** of harmful bacteria and enveloped viruses

Optima Guardian Anti-viral Multi-Surface Sanitiser is an all purpose cleanser for the effective sanitisation and disinfection of hard surfaces.

The product as supplied passes the requirements of **BS EN 1276** for the evaluation of bactericidal activity of chemical disinfectants and antiseptics, **BS EN 13727** for the evaluation of bactericidal activity in the medical area and **BS EN 14476** for virucidal activity in the medical area.

Highly effective sanitiser

Passes BS EN 1276 and BS EN 13727 under dirty conditions with a kill rate of **99.999%** (Log5) and BS EN 14476 under clean conditions with a kill rate of **99.99%** (Log4).

Proven to be effective against both gram positive and gram negative bacteria and enveloped viruses.

Total protection

Optima Guardian Anti-Viral Multi-Surface Sanitiser is suitable for use on all washable interior and exterior hard surfaces including walls, floors, tabletops, seating, fittings and fixtures.

It is also an excellent sanitiser for high contact areas including door handles and push plates, handrails, lift control panels, light switches, mobile phones and computer equipment. (with electrical equipment always spray onto cloth before wiping).

Convenient and easy to use

Optima Guardian Anti-Viral Multi-Surface Sanitiser is a ready to use product with no further dilution required. Just spray onto surfaces and leave to air dry or wipe clean with a cloth.

Available in: 6 x 500ml RTU Trigger Sprays
